

Imran Ali Namazi

Software Developer / Solution Architect from Chennai, India.
 +91-95661 66880 / imran@cselian.com / cselian.com. Resume:
cselian.com/cv.

Personal Statment

Apart from work which I do with tenacity, I'm continually experimenting with some website or app. My first craze was jigsaws and I see programming as an extension; how best to put things together that is functional, optimal and aesthetic. Sensitive to the world and its problems, I began YieldMore.org as a way to do something about it. (Yes, I have built content, technology and reached out to people with various ideas for a good part of the last 8 years with it). I see it as my contribution to society and am quite passionate about it. You will see this positivity and yearning for a better world in [some of my poems and essays too](#).

Qualification

B.E / Electrical & Electronics Engineering Nov 2005
 KCG College of Technology (Anna University) - Chennai.

Qualities

- Grasp - able to get up to speed quickly / think of implications
- Communication - strong, able to quickly understand business context
- Diligence - particular attention to detail, code organization
- Intuition - know when consultation or clarification is required
- Attitude - energetic, resourceful, methodical and earnest
- Leadership - encouraging, removing obstacles, listening and building rapport
